CloudKeeper Growth Accelerator

Accelerate innovation with free, unlimited Solutions Architect-as-a-Service.
A six-week engagement designed to help you move faster on AWS - whether you're planning new initiatives, modernizing workloads, or optimizing costs. Work directly with CloudKeeper's expert Solutions Architects to unblock roadmaps, validate ideas, and build with confidence.

Zero cost	No contractual obligation	Zero risk

What You Get

Access to multiple engagement options, tailored to your priorities. Choose one or combine several - everything below is included at no cost.

Roadmap Planning (TRP/GRP)
Technology Roadmap Planning (TRP) for core technical initiatives and GenAI Roadmap Planning (GRP) for GenAI capabilities.

Proof of Concept
Execute PoCs for new architecture patterns, service adoption or modernization, and net-new workloads.

Software Savings Analysis
Identify cost-saving opportunities by analyzing third-party software usage and evaluating repurchase options.

Well-Architected Review Plus (WAR+)
Identify architectural improvements across reliability, security, performance, cost, and operations with implementation support.

Cost Optimization Assessment
Uncover achievable and sustainable cost savings in your AWS environment without compromising performance.

FTR Compliance Assessment
Prepare faster for AWS Marketplace readiness and earn your "Qualified Software" badge.

GenAI Workshop
Identify practical GenAI use cases, map to AWS services, and understand architecture, cost, and security considerations.

Migration Assessment
Plan and de-risk AWS migrations with a clear view of scope, sequencing, dependencies, and cost implications.

What to Expect **Over Six Weeks**

- Unlimited SA-as-a-Service
- Ongoing collaboration and execution
- Regular updates and alignment with AWS stakeholders
- Continuation is optional and results in net zero costs

Why choose CloudKeeper as your **Cloud Cost Optimization Partner**?

aws PARTNER Premier Tier Services
- Well-Architected Partner
